Emergency response process

While every event is unique, there are some basic steps to follow when responding to any emergency:

Evacuation

Evacuation may be required to ensure the safety of staff and students in an emergency event. To practice building evacuations, trial evacuations (fire and lockdown drills) are conducted 6 monthly and annually in accordance with the Fire Safety and Evacuation of Buildings Regulations 2006.

Evacuation boards with instructions for fire and earthquake are placed around the Hostel.
